NOTES TO THE INTERIM FINANCIAL STATEMENTS
OCTOBER 31, 2008
(UNAUDITED – PREPARED BY MANAGEMENT)

1. NATURE OF OPERATIONS

Magna Resources Ltd. (the “Company”) was incorporated on June 5, 2006 under the laws of British Columbia. The Company’s principal business activity is the exploration of mineral properties.

The accompanying financial statements have been prepared on the basis of Canadian generally accepted accounting principles (“GAAP”) applicable to a going concern. The appropriateness of using the going concern basis is dependent upon, among other things, future profitable operations, and the ability of the Company to raise additional capital. Specifically, the recovery of the Company’s investment in resource properties and related deferred expenditures is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop the properties and establish future profitable production from the properties, or from the proceeds of their disposition. The Company has not earned any revenues to date and is considered to be in the exploration stage.

These unaudited financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

- a) These interim financial statements have been prepared using the same accounting policies and methods of their application as the most recent annual financial statements of the Company. These interim financial statements do not include all disclosures normally provided in the annual financial statements and should be read in conjunction with the Company’s audited financial statements for the year ended July 31, 2008. In management’s opinion, all adjustments necessary for fair presentation have been included in these interim financial statements. Interim results are not necessarily indicative of the results expected for the fiscal year. Certain comparative figures have been reclassified to conform to the current period’s presentation.
- b) These financial statements have been prepared on the assumption that the Company will continue as a going concern and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain mineral reserves that are economically recoverable. The continued operations of the Company are primarily dependent upon its ability to raise exploration financing from equity markets or by selling or optioning its mineral properties. Recovery of the capitalized carrying costs shown for mineral properties will likely require establishment of economically recoverable reserves, the securing of development financing or profitable production. The Company had the following deficits and working capital (deficiency) as at the following dates:

Date	Deficit	Working Capital
October 31, 2008	\$ 779,633	\$ 357,799
July 31, 2008	\$ 766,292	\$ 118,986

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (cont'd)

c) The Company adopted the following new accounting policies on a prospective basis as of August 1, 2008:

CICA Handbook Section 1400 General Standards of Financial Statement Presentation: The CICA amended section 1400 to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after April 1, 2008. The adoption of this amendment hasn't had a significant impact on the Company's financial result or position.

CICA Handbook Section 3064, Goodwill and Intangible Assets, establishes revised standards for recognition, measurement, presentation and disclosure of goodwill and intangible assets. The changes are effective for interim and annual financial statements beginning January 1, 2008. The Company has not yet determined the impact of the adoption of this change on the disclosure in its financial statements.

CICA Handbook Section 3862 Financial Instruments – Disclosures and 3863 Financial Instruments – Presentation: This new standard replaces accounting standard 3861 Financial Instruments – Disclosure and Presentation and is effective for annual and interim periods beginning on or after October 1, 2007. Presentation requirements have not changed. Enhanced disclosure is required to assist users of financial statements in evaluating the significance of financial instruments on the Company's financial position and performance, including qualitative and quantitative information about the Company's exposure to risks arising from financial instruments. The new accounting standards cover disclosure only and will have no effect on the financial results or position of the Company.

CICA Handbook Section 1535 Capital Disclosures, is effective for annual and interim periods beginning on or after October 1, 2007 and requires disclosure of the Company's objectives, policies, and processes for managing capital; quantitative data about what the Company regards as capital; whether the Company has complied with any capital requirements; and, if the Company has not complied, the consequences of such non-compliance. The new accounting standard covers disclosure only and has not had an effect on the financial results or position of the Company.

In 2006, Canada's Accounting Standards Board (AcSB) ratified a strategic plan that will result in the convergence of Canadian GAAP, as used by public companies, with International Financial Reporting Standards ("IFRS") over a transition period. The AcSB has developed and published a detailed implementation plan, with a changeover date for fiscal years beginning on or after January 1, 2011. The Company continues to monitor and assess the impact of Canadian GAAP and IFRS.

3. MINERAL PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES

Mining claims – Dent Township, Ontario

During the fiscal 2007, the Company signed an assignment agreement with Triple Dragon Resources Inc. (Assignor) and Rubicon Minerals Inc. (Optionor) on October 27, 2006. The Optionor is the owner of three mining claims: #4200361 to #4200363 inclusive located in Dent Township, claim map M-2155, Red Lake Mining Division, Ontario. On March 14, 2006, the Optionor granted an option to the Assignor to acquire an undivided 100% interest in and to the Property. The Optionor retained a 2% Net Smelter Return. One half (1/2) of the NSR (1%) can be purchase from the Optionor at any time for \$1,000,000. The exercise terms of the Shanty Bay Option Agreement are \$96,000 and 100,000 shares to the Optionor as follows:

(UNAUDITED – PREPARED BY MANAGEMENT)

4. SHARE CAPITAL b) Issued and Outstanding (cont'd)

During the period ended October 31, 2008 the Company completed an initial public offering for 2,000,000 common shares at a price of \$0.16 per share that included cash costs of \$90,797 and 200,000 agent options. The agent options were granted to the agent with an exercise price of \$0.16 and expire on October 16, 2010. In accordance with CICA Handbook Section 3860, the agent options were valued at fair value of \$17,159 determined by using the Black-Scholes option pricing model assuming a risk-free return of 3.66%, volatility of 99.623% and a life of 2 years. These costs have been recorded as share issuance costs.

c) Escrow Shares

As at October 31, 2008 the Company has 6,534,000 (July 31, 2008 – 7,260,000) common shares held in escrow by the Company's transfer agent. All of the common shares in escrow will be released as follows: 10% on the date the Company's securities are listed on a Canadian exchange (released) and 15% every six months thereafter.

d) Stock Options

The Company has a stock option plan whereby the Company is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option equals the market price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years. As at October 31, 2008 the Company has not granted any stock options.

d) Agent Options

At October 31, 2008 there were 200,000 agent options outstanding and exercisable at a price of \$0.16, expiring October 16, 2010.

e) Contributed Surplus

Balance July 31, 2008	\$ -
Fair value of options granted	<u>17,159</u>
Balance, October 31, 2008	<u>\$ 17,159</u>

5. RELATED PARTY TRANSACTIONS

There were no related party transactions during the period.

6. CAPITAL DISCLOSURE

The Company's objective when managing capital is to safeguard its accumulated capital in order to provide adequate return to shareholders by maintaining a sufficient level of funds, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company's property is in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed.

The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential, and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

7. SUBSEQUENT EVENT

Subsequent to October 31, 2008 the Company completed a trenching and sampling program on the Shanty Bay property. The results of the program were disclosed in the Company's news release dated December 3, 2008 available for review at www.sedar.com. Management plans to undertake a formal evaluation of the trenching and assay results by a Qualified Person within the meaning of NI 43-101 before deciding on any further exploration expenditures. Thereafter, a decision to undertake further work or not will be subject to the recommendations of the Qualified person, the state of the financial markets and the ability of the Company to raise further funds.

Management also reviews other properties from time to time and to date has not identified a suitable property.
