NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
OCTOBER 31, 2010
(UNAUDITED – PREPARED BY MANAGEMENT)

1. NATURE OF OPERATIONS

Magna Resources Ltd. (the “Company”) was incorporated on June 5, 2006 under the laws of British Columbia. The Company’s principal business activity is the acquisition and exploration of mineral properties.

The amounts shown as mineral properties and deferred exploration expenditures represent net costs to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. The recoverability of these amounts and any additional amounts required to place these properties into commercial production are dependent upon certain factors. These factors include the existence of ore deposits sufficient for commercial production and the Company’s ability to obtain the required additional financing necessary to develop its mineral properties.

The Company has a working capital as at October 31, 2010 of \$31,607 (July 31, 2010 – \$52,419) and an accumulated deficit of \$1,267,070 (2009 - \$1,255,636). The Company has incurred a net loss of \$11,434 for the three months ended October 31, 2010 (October 31, 2009 - \$28,830). These financial statements have been prepared under the assumptions of a going-concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company’s ability to continue as a going concern is in substantial doubt and is dependent upon the obtaining additional financing to meet its operating obligations and repaying its liabilities through settlement with its creditors in the future.

Failure to arrange adequate financing on acceptable terms would have an adverse effect on the financial position, results of operations, cash flows and prospects of the Company. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going-concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts which may differ from those shown in the financial statements.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

These interim consolidated financial statements have been prepared using the same accounting policies and methods of their application as the most recent annual financial statements of the Company. These interim consolidated financial statements do not include all disclosures normally provided in the annual financial statements and should be read in conjunction with the Company’s audited consolidated financial statements for the year ended July 31, 2010. In management’s opinion, all adjustments necessary for fair presentation have been included in these interim consolidated financial statements. Interim results are not necessarily indicative of the results expected for the fiscal year. Certain comparative figures have been reclassified to conform to the current period’s presentation.

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and 50% interest in American Potash LLC (“American Potash”) joint venture, a Nevada limited liability corporation. The joint venture has been accounted for in the Company’s consolidated financial statements using the proportionate consolidation method, whereby the Company records on a line-by-line basis its proportionate share of the assets, liabilities, revenues and expenses of the investees. All intercompany balances and transactions are eliminated on consolidation.

3. MINERAL PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES

US Potash Prospects

American Potash, owned 50% by each of the Company and Confederation Minerals Ltd. (“Confederation”), has entered into an option agreement with Sweetwater River Resources LLC (“Sweetwater”), John Glasscock and Kent Ausburn (the “Sweetwater Option Agreement”) (collectively called the “Optionors”), to acquire pending applications to the United States Bureau of Land Management (“BLM”) for Utah property and the State of Arizona for exploration permits, together with all permits and other rights issued pursuant to the applications, to allow for the exploration of potash prospects in Utah and Arizona. Subsequent to the year end, the option agreement was amended to exclude the Arizona permits and properties. Under the Sweetwater Option Agreement, American Potash possesses exclusive priority application rights for 31 potash exploration permits covering approximately 63,000 acres (255 sq. km.) of land in the Paradox Basin. 24,040 acres (97 sq. km.) of the total 63,000 acres are within a proposed Known Potash Lease Area (“KPLA”), which may become available only under a separate competitive bidding process. KPLA boundaries are currently under review and until such time that they are defined, the size of the final area of interest remains uncertain. During the course of application, the Company incurred geological works of \$137,100 that were required by the United States Bureau of Land Management (“BLM”) for preparation of exploration plans for the Utah properties. The claims in Utah are pending for approval from the BLM.

The option agreement entitles American Potash to acquire a 100% interest in permits, subject to a 2% royalty to the Optionors which may be bought back for \$2,000,000 USD. The option may be exercised by having Confederation and the Company each to pay a total of \$135,000 USD and each to issue in aggregate, 1,000,000 shares to the Optionors upon receiving grant of permits for Utah property of not less than 25,000 acres, as follow:

- \$35,000 USD upon signing the option agreement (paid);
- 100,000 shares upon grant of the Permits representing not less than 25,000 acres;
- \$25,000 USD cash and 300,000 shares on or before the first anniversary date;
- \$25,000 USD cash and 300,000 shares on or before the second anniversary date;
- \$25,000 USD cash and 300,000 shares on or before the third anniversary date; and
- \$25,000 USD cash on or before the fourth anniversary date.

American Potash will pay a finder's fee in connection with this acquisition. The fee will be US \$3,500 and 10,000 common shares of American Potash payable when permits are issued in respect of the Utah prospect for at least 25,000 acres, and thereafter 10% of the cash and stock payments made under the option agreement, payable as and when such payments are paid and issued.

See also Note 9a and b.

In addition, American Potash has nine non-contiguous Utah State trust land potash lease units in the potash-bearing Paradox Basin in Grand County, Utah. Each lease unit consists of one State section and covers a contiguous area of approximately one square mile. The nine lease units total approximately 9.5 square miles or 6,090 acres. The nine State potash lease units are all within the border of a large block of contiguous BLM potash prospecting permit applications held exclusively by American Potash, separated into contiguous north and south blocks by a proposed BLM Known Potash Lease Area. American Potash has submitted documentation requesting drill permits and is awaiting the granting thereof.

Balance July 31 and October 31, 2010	10,010,000	\$ 1,220,052

During the year ended July 31, 2009, the Company completed its initial public offering (the "IPO") raising gross proceeds of \$320,000. A total of 2,000,000 common shares of the Company were issued at a price of \$0.16 per share. As part of the IPO, the Company incurred share issuances costs of \$101,198.

c) Escrow Shares

As at October 31, 2010 the Company has 2,178,000 (July 31, 2010 – 3,267,000) common shares held in escrow by the Company's transfer agent. 10% of the common shares in escrow were released on October 16, 2008, the date the Company's securities were listed on a Canadian exchange, 15% are released every six months thereafter.

d) Stock Options

The Company has a stock option plan whereby the Company is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the plan, the exercise price of each option equals the market price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years.

On June 8, 2009, the Company granted 1,000,000 stock options to officers and directors of the Company whereby the option holders can purchase common shares at \$0.25 per share. The options vested immediately and will expire on June 8, 2014. On February 7, 2010, 142,500 options were cancelled due to the resignation of a director of the Company.

The fair value of these stock options was \$0.21 per share where the exercise price is the same as the market price at the date of grant and the fair value of each option granted is calculated using the Black-Scholes option pricing model assuming a risk-free interest rate of 2.71%, a dividend yield of nil, an expected volatility of 120% and an average expected life of 5 years. Each option entitles the holder to acquire one common share of the Company.

In fiscal 2009 a stock based compensation expense of \$207,944 was charged to operations and added to contributed surplus.

5. RELATED PARTY TRANSACTIONS

Included in accounts payable and accrued liabilities is \$25,000 due to an officer and director of the Company.

6. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of any identified business opportunities and to maintain a flexible capital structure for the benefit of its stakeholders.

In the management of capital, the Company includes the components of shareholders' equity as well as cash and cash equivalent, accounts payable and accrued liabilities.

The Company manages the capital structure and makes adjustments to it in light of changes in the economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, enter into joint venture arrangements, acquire or dispose of assets or adjust the amount of cash.

The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year sustainable growth. The Company is not subject to externally imposed capital requirements.

7. GEOGRAPHIC INFORMATION

The Company's activities are all in one industry segment of mineral property acquisition and exploration. The Company's mining operations are centralized whereby management of the Company is responsible for business results and the everyday decision-making. The Company's operations therefore are segmented on a geographic basis. All of the Company's resource properties are located in the United States. The Company's assets are located in the following geographic locations:

	October 31 2010	July 31 2010
Total assets:		
Canada	\$ 41,528	\$ 58,170
United States	187,850	187,850
	<u>\$ 195,991</u>	<u>\$ 246,020</u>

8. COMMITMENTS

See Note 3.

On April 1, 2010, American Potash entered into a consulting agreement with an independent party to provide advice and to consult to American Potash regarding exploration, leasing and mining on public Lands. Compensation is \$3,000 USD for 20 hours of service per month for a period of one year. Additional hours to complete services will be billed at \$200 USD per hour.

9. SUBSEQUENT EVENTS

- a) On November 2, 2010, the Sweetwater Option Agreement was amended to remove the Arizona permits and Arizona properties.
- b) On November 12, 2010, Sweetwater granted an option to Passport Potash Inc. ("Passport") to acquire 100% of Sweetwater's rights and interest in the Arizona properties, subject to a 2% royalty. The option agreement is subject to TSX Venture Exchange approval (the "Acceptance Date"). Consideration is payable to Sweetwater and American Potash as follows:
 - i) 500,000 free trading shares of Passport (the "Passport Shares") on the earlier of December 15, 2010 or within five business days of the Acceptance Date; and
 - ii) Three cash payments of \$30,000 each within 12, 18 and 24 months of the Acceptance Date.

Passport has the right at any time to buy one-half of the royalty for \$150,000 USD and has the right to purchase the remaining one-half of the royalty for \$150,000 USD. The allocation of the payments and the royalty to Sweetwater and American Potash will be 29.1% to Sweetwater and 70.9 % to American Potash, based on their respective percentage of total expenses incurred on the Arizona permits.

The Company has recorded acquisition expenses associated with the Arizona properties of \$49,433 as a current other asset. On December 21, 2010, American Potash received 353,450 Passport Shares. Passport's closing share price on December 21, 2010 was \$0.305 per share. Passport Share value fluctuates and the Passport Shares have a four month hold period and are not tradeable until April 17, 2011.
